Home automation opens a new, wonderful world of luxury, convenience and control.

Very recent breakthroughs in technology are making homes much more enjoyable. Simple-to-use touchpads let you raise and lower blinds, change the lighting environment, and control the home's climate with your fingertip.

Just as easily monitor the nursery, the front door and the pool, increasing security and peace of mind.

Distribute individualized music, television and Internet to any room you choose.

If this sounds like a world you'd enjoy, contact Definitive Audio. No other Northwest company has more experience with all aspects of home automation. We offer comprehensive system design, expert installation and service. The performance and quality of our products is unsurpassed.

Call today for a free in-home consultation, or visit our showrooms in Bellevue and Seattle. You can also find us on the web at www.definitive.com.
